

PROTECTING THE AMERICAN DREAM

Why Social Security and Medicare Need to Be Preserved

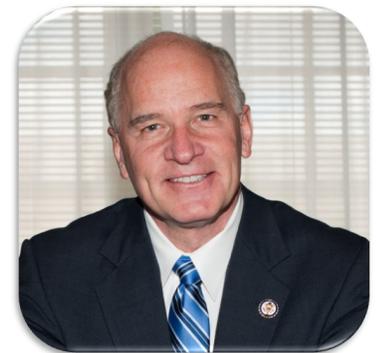

A Community Forum Hosted by CONGRESSMAN BILL KEATING

The American dream is more than just an idea. It is a living, breathing promise — a contract with the people of this great nation that if they work hard, they will be able to enjoy the fruits of their labor and retire with dignity.

Social Security and Medicare are integral parts of that contract.

In this tough economic climate, after millions of people have been paying into these programs for years, we cannot allow members of the House majority to take them away. It is time to stand up together and let our voices be heard.

I hope you will join me for this important community forum.
